PASTOR'S PARAGRAPHS

It was good to see you this past Sunday and I really look forward to all of us being together on the next Lord's Day.

If you have a friend or family member who has never gone public with their faith, I hope you will make the extra effort to have them with you in our Sunday morning worship service. The subject of the message is *"Going Public With Your Faith."*

Baptism may be the most powerful way to go public with our relationship with Jesus. Most people will share their testimony of faith with more people in baptism than they will in the rest of their life put together. Most people who come to church have been baptized as a believer. There are some who have been baptized, but they really weren't sure why. There are even others who are believers, but have not been baptized because they have never understood the significance of it. I will speak on the significance of baptism on Sunday morning. Please make every effort to have someone with you who has never gone public with their faith.

We are enjoying Sunday evening as we are taking time to examine history and see what happened after the Resurrection of Jesus. There was the beginning of a movement that changed the world and we are still a part of that movement.
